PROFESSIONAL SUMMARY

Data Analyst with 15+ years of experience across healthcare, behavioral health, finance, and education. Skilled in SQL, Python, Power BI, Tableau, and reporting automation. Builds dashboards, improves data quality, and turns complex data into clear insights for leadership, operational teams, and business stakeholders.

Brings a strong mix of analytics, reporting, and Information Technology, IT, experience. Known for improving reporting accuracy, supporting better decisions, and bridging technical systems with practical business needs.

CORE SKILLS

Data Analysis | Dashboard Development | Reporting Automation | Data Validation | Data Quality Improvement | Business Intelligence | Predictive Modeling | Data Visualization | Healthcare Analytics | Operational Reporting | SQL | Python | R | Power BI | Tableau | Microsoft Excel | Systems Administration | Infrastructure Support | Disaster Recovery | Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Sweetser, Saco, Maine, USA

Clinical Data Analyst **Oct 2025 – Present**

- Design and maintain clinical and operational dashboards to track program outcomes, service trends, and reporting needs across behavioral health services
- Investigate and resolve data quality issues affecting reporting accuracy, consistency, and usability
- Develop SQL-based reports and automate recurring reporting processes to improve timeliness and reduce manual effort
- Support reporting aligned with state and federally funded program requirements
- Translate complex findings into clear visuals and practical insights for clinicians, administrators, and leadership teams
- Partner with IT and program teams to improve data workflows, reporting structures, and operational use of data

Northeastern University, Portland, Maine, USA

Peer Tutor, Analytics **Feb 2024 – Mar 2025**

- Supported graduate students in Python, SQL, R, and Power BI through labs, workshops, and one-on-one sessions
- Guided students on predictive modeling, statistical analysis, exploratory data analysis, EDA, and dashboard design
- Helped translate technical concepts into practical steps for learners with different experience levels

Progress Savings and Loans Ltd., Accra, Ghana

IT Manager **Aug 2020 – Sep 2023**

- Led enterprise IT operations to improve system reliability, continuity, and operational support
- Supported data integration efforts that improved reporting and business intelligence capability
- Managed backup and disaster recovery processes to protect data availability and reduce operational risk
- Worked with leadership to align systems, reporting needs, and organizational priorities
- Oversaw infrastructure improvements that reduced downtime and strengthened uptime across operations

B-ONE Africa, Accra, Ghana

IT Manager **Oct 2018 – Aug 2020**

- Maintained and improved core IT infrastructure through structured upgrades and process improvements
- Supported better use of organizational data through systems integration and improved access to information
- Partnered with leadership to align IT operations with business goals and performance needs

Christian Community Microfinance Ltd., Accra, Ghana

Infrastructure Support Manager **Sep 2013 – Sep 2018**

- Developed standardized procedures for infrastructure and systems support
- Monitored network and server performance data to identify issues and improve stability
- Supported branch expansion by setting up technical infrastructure across locations
- Strengthened operational reliability through disciplined systems support and process standardization

Christian Community Microfinance Ltd., Accra, Ghana

IT Project Manager **Mar 2011 – Sep 2013**

- Led system migration efforts with focus on continuity, data integrity, and smooth operational transition
- Coordinated implementation work across teams and supported staff through training and technical guidance
- Improved technology adoption through structured project delivery and operational support

Opportunity International Savings and Loans Ltd., Accra, Ghana
Systems Administrator **Aug 2008 – Mar 2011**

- Managed systems administration, backups, and security processes across operational environments
- Supported multi-location IT operations and day-to-day system reliability
- Helped maintain secure and stable technology support across branches

SELECTED PROJECTS

Clinical Text Analytics for Pneumonia Prediction

- Developed a Natural Language Processing, NLP, model using clinical notes to support early detection of pneumonia in Intensive Care Unit, ICU, settings
- Demonstrated the value of unstructured clinical text for clinical decision support and healthcare analytics

Pricing and Promotion Analytics

- Analyzed retail sales and market data to assess pricing and promotional effectiveness
- Identified patterns that informed pricing strategy and business decision-making

Student Retention Predictive Model

- Built a predictive model to identify factors associated with student attrition
- Generated insights to support targeted intervention and retention planning

EDUCATION

Master of Professional Studies in Analytics
Northeastern University, Portland, Maine, USA
2025

Master of Science in Management Information Systems
Coventry University, United Kingdom
2014

Bachelor of Arts in Psychology with Philosophy
University of Ghana, Ghana

2007

CERTIFICATIONS

Cisco Certified Network Associate, CCNA
CompTIA A+
CompTIA Network+
PRINCE2 Practitioner
Data Center Infrastructure Specialist, DCIS
Data Center Infrastructure Expert, DCIE

TECHNICAL TOOLS

SQL | Python | R | Power BI | Tableau | Microsoft Excel | Predictive Modeling | Data Visualization | Reporting Automation | Data Validation | Business Intelligence | Systems Administration | Network Management | Cybersecurity | Disaster Recovery
